

GRUPPO NOTTE
CHEST OF DRAWERS

INTERNO / INDOOR

Contenitori realizzati sovrapponendo uno o più moduli di diverse altezze e finiture partendo da una base o un traliccio. Struttura realizzata con elementi uniti a 45°, una lamina in alluminio incassata sui fianchi esterni permette il perfetto fissaggio tra i vari moduli.

The Box collection units are realized by placing one or more modules one on top of the other. They can be in different heights or finishes and it is possible to choose a base or a trestle. An aluminium blade inserted in the external sides ensures a perfect fixing between the modules.
