NOTES

1

IT Per la vista dello sviluppo totale del decoro vedi retro.
EN For the complete view of the drawing see the back of this document.
FR Développement total de la décoration voir ou dos de ce document.
DE Gesamtansicht des Oberflächendekors siehe Rückseite dieses Dokuments.
ES Para ver la expansión del dibujo totale de la decoración ver detrás de este documento.

2

IT Non realizzabile su tutte le collezioni. Verificare fattibilità in azienda.
EN Not applicable to all our collections. Always ask for feasibility.
FR N'est pas réalisable sur toutes les collections. Vérifier la possibilité de réalisation avec l'entreprise.
DE Nicht realisierbar auf alle Kollektionen. Es ist notwendig die Machbarkeit zu überprüfen.
ES No se puede realizar en todas las colecciones. Es necesario consultar a fábrica.

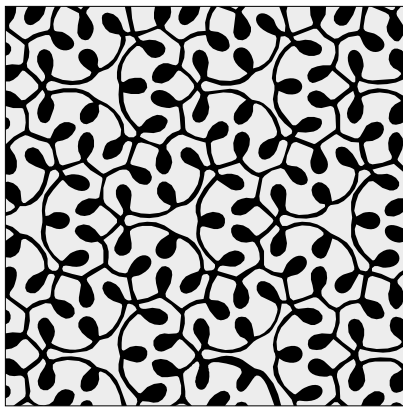

3

IT Disponibile in tutti i colori opachi.
EN Available in all matt colours.
FR Disponible dans toutes les couleurs mat.
DE In allen matten Farben erhältlich.
ES Disponible en todos los colores mate.

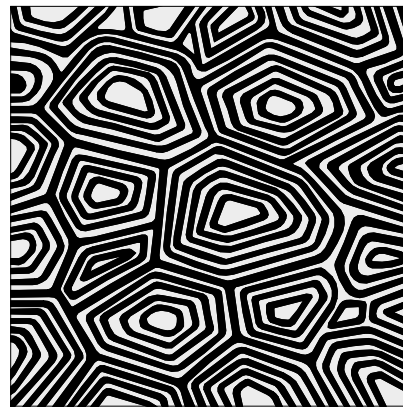

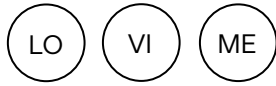

~~PATCH~~

IT Non realizzabile su ante e testate letto Quadro.
EN Not possible on the frontals and headboards of Quadro collection.
FR Ne peut pas être réalisée sur les portes et têtes de lit Quadro.
DE Nicht realisierbar auf die Türen und auf die Kopfteile Quadro.
ES No se realiza en puertas y cabeceras Quadro.

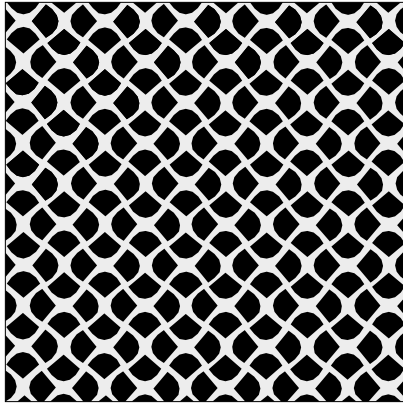

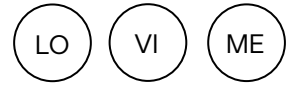

- IT Le incisioni 3D sono realizzate con strumenti a controllo numerico estremamente precisi. Eventuali irregolarità delle superfici all'interno delle aree lavorate sono tollerabili in quanto dipendono dalla densità più o meno uniforme del supporto ligneo su cui viene eseguita la lavorazione. La finitura di ogni singolo pezzo viene realizzata manualmente.
- EN Engraved decorations 3D are realized with extremely precise numerical control tools but may eventually present minimal irregularities within the engravings due to the non perfectly constant density of the wooden support on which the decoration itself is engraved. Each single piece is then finished off by hand.
- FR Les décorations gravées 3D sont réalisées avec des instruments à contrôle numérique très précis, pour cette raison des irrégularités éventuelles des surfaces à l'intérieur des parties travaillées sont tolérables, car elles dépendent de la densité plus ou moins uniforme du support en bois sur laquelle on travaille. La finition de chaque pièce est ensuite réalisée à la main.
- DE Die eingravierte Dekors werden mit hochpräzisen CNC-Geräten durchgeführt. Eventuelle Unregelmäßigkeiten der Flächen innerhalb der bearbeiteten Bereiche sind dennoch möglich, da sie von der mehr oder weniger gleichmäßigen Dicke der Holzunterlage abhängen, auf der die Bearbeitung erfolgt. Die Feinbearbeitung der einzelnen Stücke erfolgt anschließend per Hand.
- ES Las incisiones 3D se realizan con instrumentos controlados numéricamente de extrema precisión, por lo tanto algunas irregularidades en la superficie en el interior de las áreas elaboradas son tolerables ya que dependen de la densidad más o menos uniforme del soporte leñoso en el cual se trabaja. El acabado de cada una de las piezas se realiza manualmente.
