

GRUPPO NOTTE
CHEST OF DRAWERS

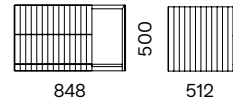

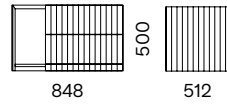

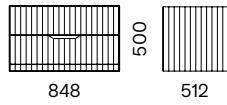

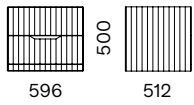

INTERNO / INDOOR

Comò e comodini con cassetti. Il top è ribassato di 28 mm rispetto ai fianchi esterni e ai frontali per permettere l'apertura dei cassetti. Per i frontali inferiori è prevista una maniglia a gola. La parte superiore della struttura e dei frontali è caratterizzata da un taglio inclinato che li rende visibilmente sottili. Tutti gli elementi presentano un decoro tridimensione continuativo. La possibilità di decorare anche lo schienale permette il posizionamento in centro stanza. La struttura interna dei comò e comodini è realizzata in melaminico.

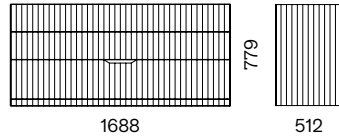

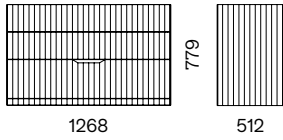

Dressers and bedside tables with drawers. The top is 28 mm lower than the outer sides and front, to allow for the drawers to be opened. There is a recessed handle for the lower front parts. The upper part of the structure and its fronts are characterized by an inclined cut that renders them visibly thin. All components have a continuous three-dimensional decoration. The possibility of decorating their backs also allows for these furnishings to be positioned in the centre of the room. The dressers and bedside tables' internal structures are made of melamine.
