

Capodopera.

We transform surfaces into unique design furniture.

Our history starts in 1992, with a folder full of ideas. The company develops in an intimate setting, near a lake at the foot of the Veneto Pre-Alps. It soon moves into the world of furniture design, while maintaining a personal vision and an approach rooted in the highest quality craftsmanship.

Values

Material Research

Capod’opera explores materials and surfaces with curiosity and precision. Every design transforms raw matter into expressive textures, turning each piece into a unique interpretation of form, function, and experimentation.

Contemporary Craftsmanship

Traditional techniques meet modern design thinking. Every piece balances meticulous craftsmanship with functional innovation, reflecting both skill and creativity in a harmonious way.

Creative Freedom

Through direct dialogue, Capod’opera provides clients, architects, and shopkeepers with the tools to fully explore their creativity. Each design depends on intuition and experimentation, making no piece of Capod’opera furniture ever the same.

Genuine Made in Italy

From locally sourced materials to hands-on production, every step embodies authentic Italian quality. Capod’opera integrates sustainability and excellence to create furniture that stands the test of time.

Bottega Capod'opera

The Bottega Capod'opera is a place to come together and exchange ideas, where practical, authentic and humble know-how is generated. Just like the medieval arts and crafts guilds in which, after years of study, student apprentices presented their “capodopera”, or masterpieces, to their teachers.

Capod'opera

Company Profile

About

Here, craftsmanship meets experimentation, and every stage of production-from first sketch to final surface-is guided by meticulous attention to detail and deep understanding of materials. Artisans combine traditional techniques with creative exploration, producing furniture that is both unique and expressive.

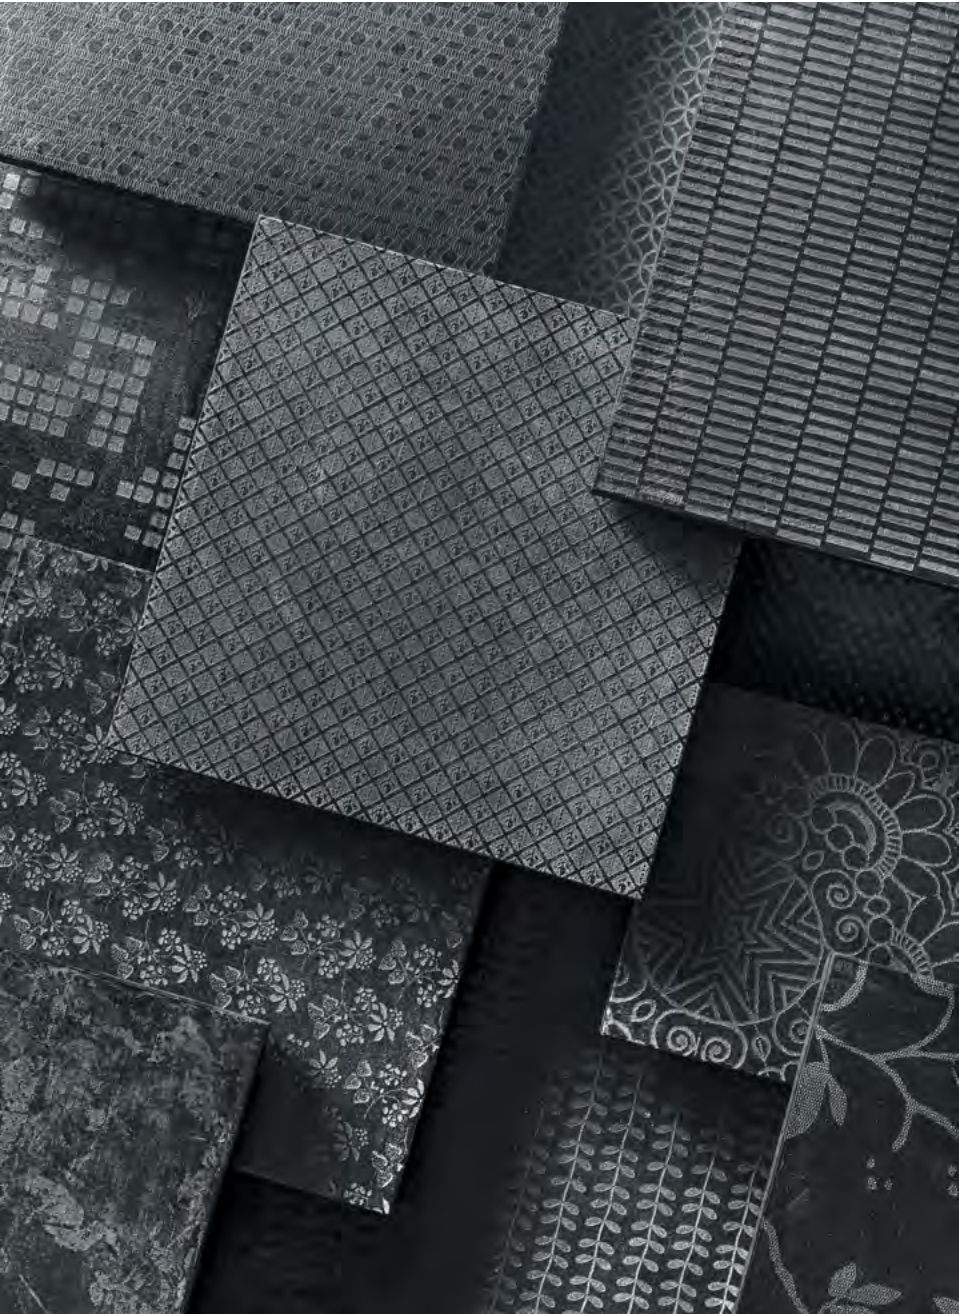

Textures

Capod'opera's textures give character and personality to every piece of furniture. They transform materials into expressive surfaces, creating depth, tactility, and visual interest. Each texture is part of a continuous exploration, defining the unique identity and presence of every design.

Products

Capod'opera's catalogue brings together furniture pieces designed to shape different living spaces. From iconic cabinets and sideboards to systems, tables, and accessories, each product reflects a shared material language. The collections Living, Dining and Night organize these elements into coherent and expressive environments.
